

RUBEX

RUBEX 7205 UL GASKET TAPE

Product Overview: Rubex 7205, manufactured at the Rubex facility, is a premium, UL approved gasket tape formulated to provide high levels of adhesion, elongation, and tensile strength. This product can withstand prolonged exposure to high temperatures and adheres well to all non-porous surfaces.

Product Uses: Rubex 7205 is designed for use as a gasket in ventilation units. It provides an airtight seal when used around the joints of adjoining pieces of ductwork, and can also serve as a sealant tape in more generic applications.

Technical Information:

Raw Material Base.....Synthetic Polymer	Solids by Weight.....100%
Cone Penetration.....9.5 – 10.5 mm @ 77°F	Service Temp. Range.....-40°F – 180°F
Color.....Light Grey	Shelf Life.....One Year
Specific Gravity.....1.65 – 1.75	Physical State.....Solid
Elongation (ASTM D412).....1800 – 2200%	Manufactured State.....Extruded Rolls
Tensile Strength.....13 – 16 psi	Odor.....Neutral

Application Information: Rubex 7205 material is extruded onto removable release paper backing to facilitate handling. For most efficient usage, it is recommended that the material be pressed onto one surface, stripped of its paper backing, and then brought into contact with the second surface. When using to seal applications involving fasteners, position on the entry side to prevent the penetration of contaminants through fastener holes.

Packaging & Handling: No special handling is required for this product, though storage in a cool, dry area is recommended for maximum shelf life and effectiveness. Tools and equipment used while applying Rubex 7205 can be cleaned using mineral spirits, if necessary.

Safety Instructions: No special requirements are needed. An MSDS is available upon request.
